CEI | 2012

PROFESSIONAL EXPERIENCE

Runroom.com

April 2015 - Currently (Barcelona)

Frontend Developer

Runroom is a digital agency based in Barcelona. We developed web projects from small to big clients such as Mesoestetic, Hospital Sant Joan de Deu, Capside, Eroski. Worked with Twig Templating, Drupal, Gulp-Grunt, Sass, Atomic Design, Wordpress, SVG Animation, UI-UX, Agile, Javascript and Newsletters. Always seeking for improvement and web performance.

Otogami.com

April 2014 - March 2015 (Madrid)

Frontend Developer / Designer

An online videogame finder founded by David Bonilla. Otogami's idea was to create the most informative video game finder at the best price possible around the world. I worked as a freelance in this project and developed the site as a 3 member startup with some friends, a lot of work and some hard working nights (but with beer :))

Runnics.com

April 2014 - March 2015 (Madrid)

Frontend Developer / Designer

Twin sister of Otogami, both founded by David Bonilla. It consisted of a very big sneaker-running shoe searcher and a place where the user has all the tools and updated information of the 'running' world. I designed + coded (frontend) the website, newsletters and landings. Combined this project with Otogami's as a freelance developer/designer.

Deiser.com

April 2012 - March 2015 (Madrid)

Frontend Developer / Designer

Experts in plugin development for Atlassian and faithful followers of Agile.

My work was around the code + design of the corporate website, landings and newsletters. image design for Atlassian plugins, complete corporate online management, design and video production of Atlassian plugin products.
